For a designer, it is important to be able to talk about and describe the work they do and to share ideas even at an early stage.

Telling about your project is daunting but also fun!

Mistakes and blunders happen to all of us sometimes, and it doesn't matter.

Let's cheer each other and show interest in each others' presentations!

In creative work, mistakes are an important part of the development, and they mean you were brave and tried something new!

Let's design a PechaKucha presentation!

Are you nervous about presenting? No worries Everybody gets nervous, and everybody does the talk in their own style.

Mistakes are important and valuable. Without mistakes there would be nothing new or interesting. You don't need to worry about making a mistake!

Tell about the pictures in your own words. You are interesting!

What would you say about your images to a friend or family member?

You can also practice the presentation with your pet or just by yourself.

Have you tried making a video of your presentation?

You can choose your images together with a friend. How about scripting the presentation talking about it together?

5	What have you seen or observed lately that is interesting? What is happening in your life at the moment? What do you talk about with your friends? What about your family?	
	What do you think is going on in the world?	
bγ	What kind of pictures do you like? Do you like black and white? Or colourful images? Drawings? What kind of images do you have saved on your mobile phone? Can you find images on your chosen topic on the internet or in books? Can you make a drawing of your topic?	m
~ J	Have you tried creating a collage?	

With the speech bubble template, you can plan what to say about each chosen image.

There is a speech bubble for each of the 20 images!

You can create training versions.
